

Training programme on “Operation and Maintenance of Farm Implements”

23rd – 25th January, 2020, Buxar

KVK, Buxar organized a three days training programme on “Operation and Maintenance of Farm Implements” under the Consortia Research Platform on Farm Mechanization and Precision Farming from 23rd to 25th January, 2020.

DAO (Buxar) Sh. Krishnanand Chakraborty inaugurated the training programme on 23rd January 2020 and appraised the participants about the recent advances in agricultural practices. He also briefed about the various schemes on agriculture for the benefit of farmers. During this training programme, practical and theoretical sessions on operation and maintenance of farm implements for various agricultural operations viz., field preparation, weeding, harvesting etc. were organized. Participating farmers also visited farm of KVK, Buxar where they exposed to the latest farming techniques suitable for the region. During field demonstration of tillage implement (Power Harrow), Dr. Ujjwal Kumar, Head, DSEE, ICAR-RCER, Patna informed the farmers about importance of primary and secondary tillage. He also motivated the farmers to take up mechanization for increasing agricultural productivity and thereby improving their livelihood. He also presided over the Valedictory Session and distributed the certificates to the participants. The farmers appreciated the efforts of KVK Buxar in conducting such important training programme for their skill up gradation. A total of 30 farmers of Buxar district participated in the programme.
