

Animal health - cum - vaccination camp and input distribution program organized by FSRCHPR (ICAR-RCER) under Scheduled Caste Sub Plan and All India Co-ordinated Research Project component

Farming System Research Centre for Hill and Plateau Region (ICAR-RCER), Plandu, Ranchi, organized an “Animal health - cum - vaccination camp and input distribution program” on 15th June 2022 for village clusters *i.e.*, Bahagada, Sauns (Lawaloung block) and Gendra, Asediri (Kunda block) of Chatra district. More than 400 cattle were vaccinated for combined FMD, HS, BQ vaccine for the prevention of Foot and mouth disease and PPR vaccination in goats. After the Farmer’s scientist interaction meeting on scientific management of goats, poultry and cattle, medicines were also distributed for deworming in goats and cattle.

Consequently, tomato hybrid (Swarna Samapada), pole bean seeds, mango & papaya saplings, and organic nutritional supplements *i.e.* vermicompost and seaweed extract powder were also distributed to SCSP beneficiaries. The program was attended by 75 participants including 12 women participants. The input distribution program was followed by a visit to the Guava orchard, developed under SCSP and AICRP (Fruits). The program was coordinated by Dr. Reena Kumari Kamal (Scientist, ICAR-RCER, FSRCHPR, Ranchi), Dr. Mahesh Dhakar (Scientist, ICAR-RCER, FSRCHPR, Ranchi) and Dr. Meenu Kumari (Scientist, ICAR-RCER, FSRCHPR, Ranchi) with the support of Krishi Vigyan Kendra, Chatra.
