

Chicks distribution-cum-exposure visit under Farmer FIRST Project at Livestock unit of ICAR RCER, FSRCHPR, Ranchi, Jharkhand

Under Farmer FIRST Project (FFP), Chicks distribution-cum-exposure visit has been organized at Livestock unit of ICAR RCER, FSRCHPR, Ranchi, Jharkhand on 05.01.2023. During the programme, scientist interacted with the farmers and suggested methods for poultry management practices. Farmers were informed about that Ranikhet disease which is the most important disease under free range poultry farming. Farmers were updated by the integrated management options for improving the rural livelihoods of tribes.

This programme was organized with the aim to popularize the backyard poultry rearing in Jharkhand to improve the livelihood security of tribal farmers of the state. Necessary inputs like feed ingredients, medicines etc along with 300 day old chicks were distributed to 11 beneficiaries.
