

## Wheat Field day cum training programme organized in Sangrampur and Chiraiya block of East Champaran, Bihar under NASF Project

Field day cum training on wheat cultivation was organized under the NASF funded Project “Development and validation of Need based technology delivery model through FPO in eastern region of India” on 14-15 March, 2022. The programme was conducted at Dariyarpur Village in Sangrampur block on 14<sup>th</sup> March and Diphi village of Chiraiya block of East Champaran on 15<sup>th</sup> March, 2022. Foundation seed of high yielding wheat variety HD-2967 was given during the rabi season to the members of *Someshwarnath Kisan Utpadak Sangathan Sahkari Samiti Ltd.* at Sangrampur and *Champaran Farmers Producer Company Ltd.*, in Chiraiya block of East Champaran. In the field day programme, seed production technology of wheat was discussed and feedback received from farmers on the performance of HD-2967 in farmers’ field. Necessary advisories were also given for summer moong cultivation in the project area. Project team, consisting of Dr. Anirban Mukherjee, Dr. Dhiraj Kumar Singh, Dr. Kumari Subha and external expert Dr. Rakesh Kumar visited the wheat field along with farmers and interacted with them on various issues. Farmers gave positive feedback and expressed their desire for seed production of this variety.
